

Robust valves for challenging environments

VUVS Individual Valve Range

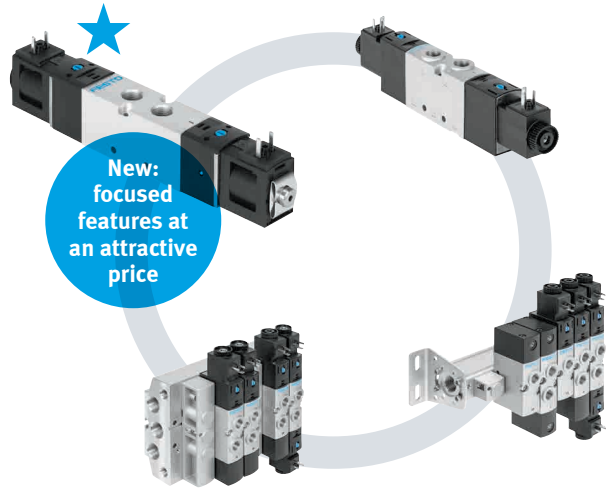

Your first choice for simple, cost-effective pneumatic control

Individual valves VUVS – flexible, modern, robust and durable quality. For up to 100% more flow with higher energy density. Proven technologies and materials. Comprehensive range of accessories. Numerous mounting options and easy operation. That is what today's valves should be!

Highlights

- Attractive price
- Robust design
- Festo quality
- High flow rate
- Ready for dispatch in 24 hours
- Pressure range up to 8 bar
- IP65 rated with socket
- ...many more variants
- with additional
- features available
